

# LET'S SHOW DIABETES WHO'S THE BOSS.

Women find confidence through peers who understand and care about them as individuals. This confidence helps women take ownership of their health and happiness. And can change the way the world sees and treats women with diabetes. Together, we can do this.

*DiabetesSisters* 

*DiabetesSisters is a nonprofit organization whose mission is to improve the health and quality of life of women with diabetes, and to advocate on their behalf.*

**PEER SUPPORT. EDUCATION. CONFIDENCE.**
